Dedication

Dr. Venita Morell & Dr. Brenda Latham Sadler

It is with admiration and gratitude that the staff of the 2001 Gray Matter honor Dr. Venita Morell and Dr. Brenda Latham-Sadler for their commitment to the students of Wake Forest University School of Medicine.

A graduate of Virginia Commonwealth University, Dr. Morell attended medical school at the Medical College of Virginia with a U.S. Air Force Health Professions Scholarship. She first arrived at Bowman Gray School of Medicine in 1983 to complete her residency in Family Medicine including one year as Chief Resident. Dr. Morell continued her medicine career as a staff physician in the U.S. Air Force in Washington until returning to Bowman Gray in 1990 as an Assistant Professor. She was recently promoted to Associate Professor in the Family Medicine Department.

As Associate Professor of Family and Community Medicine, Dr. Morell serves on many committees that work to better the curriculum and meet the needs of students. The Committee on Undergraduate Medical Education, the Dean's Advisory Committee, and the Phase III, IV, and V Committees are just a few of her responsibilities in addition to her chairing the Physician Assistant Advisory Committee. Although she stays busy with her clinical duties in the Family Medicine Department, Dr. Morell continues to be active in the lives of students. She has touched many students as Director of both the Community Continuity Course and the Family and Community Medicine Predoctoral Education Program. She is also involved with the Physician Assistant Program. For years Dr. Morell has welcomed students into her home as Faculty Advisor to the Family Medicine Interest Group.

Dr. Brenda Latham-Sadler completed her undergraduate education at Pace University and arrived at Bowman Gray School of Medicine in 1978 to obtain her medical degree. She stayed at Bowman Gray in the Family Medicine Residency Program to complete her training. After residency Dr. Latham-Sadler entered private practice and remained there until 1989. At that time, she returned to Bowman Gray as Assistant Professor in the Family Medicine Department.

Like Dr. Morell, Dr. Latham-Sadler's schedule stays full because of her extensive involvement in the medical school. She is Director of the Third Year Family Medicine Clerkship and Faculty Advisor to the Student National Medical Association. Students may also remember her role as facilitator for several courses including the Doctor Patient Relationship course, the Primary Care/Basic Science Clinical Correlation Seminar, and Medicine as a Profession. She also serves on numerous committees including the Predoctoral Education Committee, the Physician Assistant Admission Committee, the Subcommittee on Preceptor Recruitment, and many others.

In addition to her contributions to the medical school, Dr. Latham-Sadler manages to be active in the community. She is involved with the Salem College Women's Leadership Connection Mentor Program, the Public Affairs Committee of Forsyth-Stokes-Davie County Medical Society, and Youth Opportunities, Inc.

Although Dr. Morell and Dr. Latham-Sadler hold numerous positions in and around the medical school, they are most remarkable for their openness and dedication to helping the students that cross their paths each day. Their offices are always open and serve as a revolving door for students that feel welcomed by their kindness, intrigued by their insight, and comforted by their humor. It is these attributes, as well as their other contributions too numerous to mention, that make Dr. Morell and Dr. Latham-Sadler deserving of this dedication of the 2001 Gray Matter.

Acknowledgements

Dr. Velma Gibson Watts has been a much loved and appreciated member of the WFUSM family in her roles as Assistant Dean for Student Affairs, Director of Minority Affairs, and Associate Professor of Medical Education. During her 16 years at WFUSM, Dr. Watts created various programs to assist academically talented minority high school, college, and graduate students in their quest to become physicians. Through her efforts, the university acquired more than \$4 million dollars in grants to fund projects to develop minority physicians and scientists. Dr. Watts helped develop the post baccalaureate program in 1987. She has also given many presentations at both national and local conferences and held office in several hospital and community organizations.

Dr. Watts attended A & T State University in Greensboro, NC where she received a BS in elementary education in 1955 and an MS in education in 1960. She then went on to receive an ME in early childhood education and supervision and administration from the University of North Carolina at Chapel Hill in 1969. Her PhD in educational administration was received in 1980 at Duke University.

Dr. Watts retired on May 31 and was named Associate Professor Emeritus of Medical Education. We wish to acknowledge her for her tremendous dedication and commitment to education at WFUSM.

Dr. Timothy Pennell has been a lifetime "Demon Deacon". He received his BS from Wake Forest University in 1955 and his MD at Bowman Gray School of Medicine in 1960. After graduating, he completed residencies in General and Thoracic Surgery and Thoracic and Cardiovascular Surgery at Bowman Gray. Since then, Dr. Pennell has shown equal commitment and dedication to WFUSM in his roles as Professor of Surgery, Director of International Health Affairs, and Chief of Professional Services.

As the Director of International Health Affairs, Dr. Pennell has assisted countless students in arranging rotations abroad. He has also been instrumental in establishing missionary hospitals overseas and has

traveled extensively both for pleasure and to practice medicine in underserved areas. In his free time, Dr. Pennell enjoys fly fishing.

Dr. Pennell has recently stepped down from his position as Chief of Professional Services, but he will continue to teach medical students and residents. We acknowledge him for his ongoing commitment and loyalty to his family, colleagues, students, and patients. His kind disposition and service to the community set an exemplary example for all.

We wish to thank the members of the Class of 1958 for their kindness and generosity in providing IBM Workpads to the Class of 2001!

INTRODUCTION

A Tribute to the Class of 2001

On a hot day in August 1997, we gathered as a class for the first time, full of excitement, at what was then known as Bowman Gray School of Medicine. We came together with a common mission, ready to embark on a journey of self-discovery and academic challenge in our pursuit of becoming physicians. Some of us would be part of a traditional curriculum, others a parallel one. During orientation, we were told that medical school is like drinking water out of a fire hydrant. We soon found this to be true as we tackled our first courses. The friendships we made during orientation week became stronger as we dissected cadavers

together, spent late nights in the cross-section room, and made the fish bowl our second home. Many of us became involved in student organizations, especially those that offered free lunches. Somehow, we survived first year. At the beginning of medical school, we asked the question, "Will we be able to do it?" Now, we wondered "Will we ever know enough?"

After what would be our final summer vacation, we returned refreshed and ready to dive into second year. Although the entering class had a new curriculum and laptops, we still enjoyed meeting our "little sibs" and helping them adjust to medical

school. We stood proud in our white coats during fall convocation. Not only was this our last year in the classroom, but we had the nagging realization that soon we would have to take the dreaded Step 1 Board Exams. Most of our classes were clinical in nature and began with the statement "You are the last class that will be taught this way..." We acquired a strong foundation of knowledge, which would serve us well in third year and beyond. Our last day of class

nally arrived, and we celebrated with bingo, final AV performance by Howard, and a notched attempt at soaking the first years with water balloons. In the weeks to follow, we formed bonds with members of our future rotation groups during ropes courses.

We began third year with a sense of exhilaration that we had survived Boards, made it to the wards, and would finally be

involved in patient care. At this time, traditional and parallel students united. With the school's continually evolving curriculum, we faced the challenge of learning the same amount of material as previous classes in a shorter amount of time. Throughout the year, we retracted, rolled out of bed two hours before sunrise to pre-round, and lugged around charts writing orders. We also started to acquire a sense of what specialties we might eventually pursue.

Fourth year was the year of Step 2,

ERAS, interviewing, scheduling flexibility, and free time. While some traveled to remote areas of the world, others mastered the science of ventilator adjustment and honed up on skills such as central line placement and the perfect golf swing. We reveled in our weekends off, gearing up for intern year. We stood together on Match Day, hoping we remembered our combinations, and anxious to see what our mailboxes held in store for us. Graduation marks the end of our journey as a medical school class and the start of a new journey as physicians.

I look back at how we were as first years, how we seemed timid and unsure of what medicine held for us. Now, as fourth years, we have more confidence in our ability to solve problems and take care of patients.

--Jay ReVille, MSIV

Seeing the 3rd & 4th years practicing real medicine on the floors makes all the hard work of 1st and 2nd year seem worth it. I'm looking forward to our clinical rotations.

--Rachel Scheier-Dolberg, MSI

It is exciting to finally put into practice the knowledge and skills we learned during the first two years. To talk to patients and play an active role in their care is especially gratifying.

--Jessica Kent, MSIII

My favorite rotation is Emergency Medicine because you are treated with respect and given a lot of responsibility.

--Anita King, MSIV

The staff and faculty of WFUSM are amazing. They constantly demonstrate on a daily basis care and concern for students, and they are overwhelmingly supportive.

--Nadia Sutherland, MSIII

Second year is much harder than first year, but also better because the things we're learning have more clinical relevance. I'm trying not to think of the Boards too much right now... isn't that that big test in April?

--Sara Smith, MSII

Wake Forest has
an environment
where you can
learn and grow and
one day become a
fantastic physician.
The faculty are
tremendous. They
go the extra mile
and want to see
everyone succeed.
-- Christina Bovelsky,
MSI

The friends you have in medical school are what helps you get through and what makes it possible because everyone is going through it together.

-- Maggie Brewinski, MSII

After a long road, it's exciting to be graduating and moving on. I feel well prepared to start a residency and pursue my career in Family Medicine.

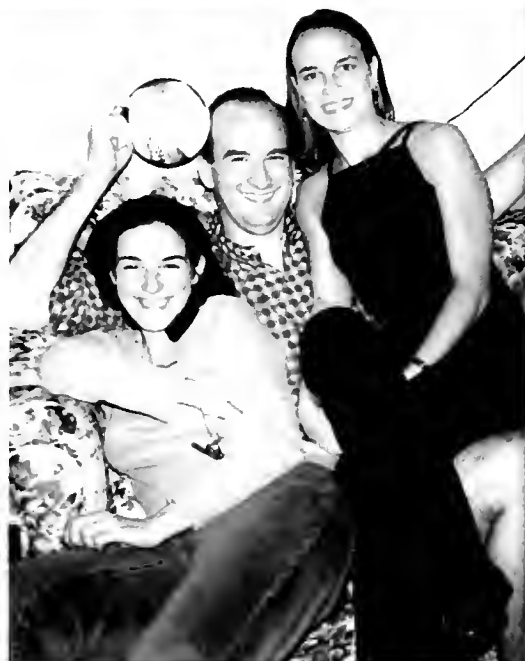

-- Ginger Wiley, MSIV

I think Wake Forest is one of the hidden secrets among medical schools. We have outstanding faculty & housestaff that are willing to teach. I've heard the housestaff comment on the high caliber of students here.

--Jen Kim, MSIV

When people ask why I have stayed here twenty-six years, my answer is always the same: There are no better people anywhere in the world!

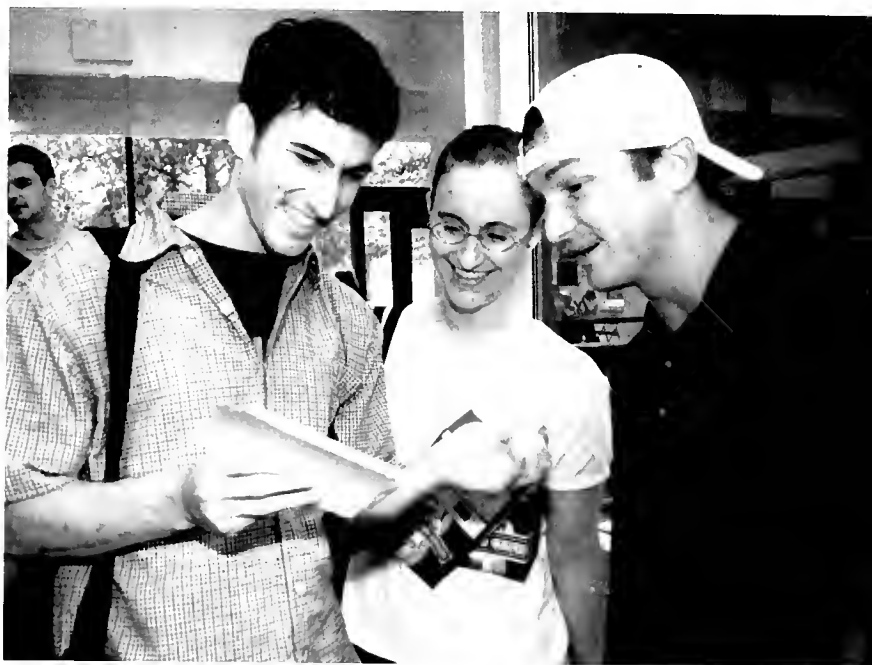

-- Dr. Patrick Ober

We have a very open learning environment. The floor service is very much geared toward students expanding their knowledge.

-- Alexandra Cvijanovich, MSIII

I think it's neat how medical students get together outside of school to do things like play golf, hike, bike, and grill out.

There are a lot of tough requirements in medical school, but overall it's a laid back environment.

-- Ross Peet, MSIII

This is a high-paced environment, but the people are pleasant to work with. We all have fun and get along. I really enjoy working with the students and other residents.

-- Dr. Daran Glenn,
HOIII, Internal Medicine

I'm Vice President of the student body, so I've been busy planning parties. It's something I really like because I get to interact with a lot of different people. It's an extra burden, but I really enjoy it.

-- Mike Nichols, MSII

Award for Teaching Excellence

Awarded by the Academic Faculty, Medical School Administration, and Student Body

James E. Johnson, Ph.D.

Dr. Johnson is an Associate Professor in the department of Neurobiology and Anatomy. He received his undergraduate degree from the University of North Carolina, Chapel Hill, and then went on to earn a Ph.D. in Anatomy from the Bowman Gray School of Medicine. Well known to all medical students for his dramatic representation of the human uterus, Dr. Johnson works tirelessly to assist students in their studies of Gross Anatomy, frequently coming in after hours and on weekends to tutor in the lab. He is a tremendous student advocate, apparent by the many medical and graduate student committees on which he serves. Having been nominated numerous times for the Basic Science Teaching Award, it is our honor to finally award him for his teaching excellence.

Charles B. Clark Memorial Award

For Outstanding Service to the Senior Class

Melissa L. Stevens

Mrs. Stevens serves as the Financial Aid Director for the School of Medicine. Having taken several courses at Forsyth Technical Community College, in addition to extensive software training in PeopleSoft Financials, she describes her academic education as a work in progress. After joining the Bowman Gray staff in 1985 as Financial Aid Assistant, she was promoted to Financial Aid Director in 1994. She currently serves on a student loan advisory board with Wells Fargo Bank and co-chairs the Student Finance Committee at the medical school. Despite all these responsibilities, students are always greeted with an open door and warm smile, even when stopping in at the spur of the moment. As a beloved member of the student services staff, it is our pleasure to award her for her service to the senior class.

CLASS OF 2001

P o s t - B o a r d s P a r t y

Old Town Country Club

July 28, 2000

Despite many changes to the curriculum, the tradition of the Post-Boards party continued this year. A feeling of excitement filled the air as fourth year students attended the event hosted by the Medical Alumni Association. It was a time to gather and celebrate the completion of the second and last standardized test of medical school. Although many students had taken Step 2 of the Boards months before this night, it did not distract from the festive mood.

Held again at the Old Town Country Club, the night began with mingling among classmates on the verandah, followed by a delectable buffet dinner, and finished off with some post-prandial dancing to keep the blood flowing. It was a wonderful night of celebration to commemorate the completion of Step 2 and three long years of medical school, as well as usher in the last year of training.

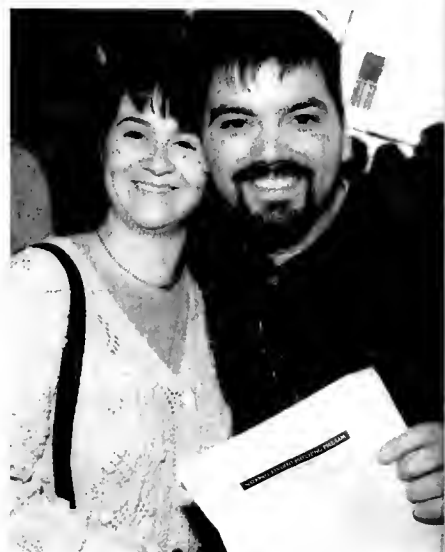

Match Day

Bridger Field House

March 22, 2001

Twelve o'clock noon: the moment when our fate was determined. At least for the next 3 to 5 years. After a long application process, it is the day when residency locations are discovered. The moment is filled with energy and emotion, whether delight or surprise. To ease the anxiety many students gathered for breakfast beforehand. Student Affairs and Alumni Affairs hosted a wonderful luncheon afterwards at Bridger Field House, where each senior announced their next location of residence. The festivities continued into the night as classmates gathered again at La Carreta to eat and enjoy libations. It was a day to remember.

I
highly
recommend
matching.
--Dwight Bates,
MSIV

Canadian roots

Arizona - bred

True love!

Lifelong friends

Former life as a physicist

Dr. Rebecca Burkellow Glenn

To my friends & family:

I love you dearly & consider myself very fortunate to share this world with you.

Thank you for the countless ways that you enrich my life & for seeing me safely through medical school.

Love, Rebecca

Dr. Victoria Jenney Gregg

"But those who wait on the Lord shall renew their strength; They shall mount up with wings like eagles; They shall run and not be weary; They shall walk and not faint."

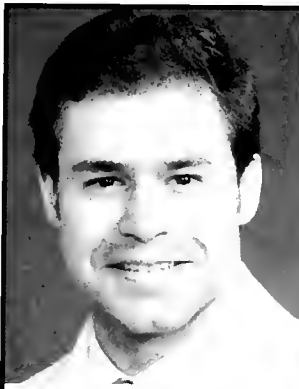

Isaiah 40:31

Thanks Mom, Dad,
and Chris for your
love and prayers.

Dr. Nancy Sokal Hagerman

Dr. David Hall Hammett

Dr. Janet Knight Horton

In your arms,
where all my
journeys end.
--Chapman

60+ years of
inspiration - I
love you,
Grandma and
Granddaddy

Mom and Jen -
Thank you for
25 years of
laughter, love,
and
encouragement.

I kept my eye
on the goal,
Dad.

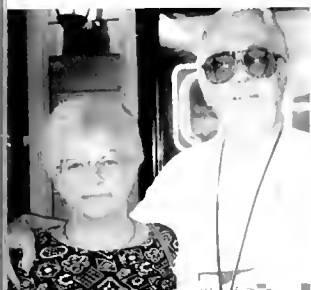

Dr. Cressent Marjorie Hudson

To laugh often and much, to
win the respect of
intelligent people and the
affection of children, to
leave the world a bit better,
to know even one life had
breathed easier because you
had lived. . . that is to have
succeeded.

-- Unknown author

Thank you to my family and friends for all of your love and support.

Dr. Karen Elizabeth Jacks

"The challenge is to be yourself in a world that is
trying to make you like everyone else"

-Anonymous

To those who walked beside me and stood behind me on this journey - thank you.

Dr. Karen Marie Jones

Thank you for being there for me. Love you guys.

Oh, do you need this chair?

Feed me!

My sweetie

Dr. Ahmed Fouad Kandeel

Congratulations
to the entire class of
2001!

Best of luck in the
future.

Dr. Kalpana Kasala

My big-little brother, I'm so proud of you.

Loving the life of Pinni.

Akkaya, you are my hero! Thank you for all your love and support.

With my utmost love and respect, thank you.

My pride and joy, Ashi and Anesh.

My hat's off to you Ladies!

Post-boards in England with Sara Lee.

Dr. Leighton Bradford Tewes

WOW! who's the hottie! . . .
oh, wait a minute, it's mom

Happiness can be found neither
in ourselves nor in external things, but in God
and in ourselves as united to Him.

- Blaise Pascal

Future lawyer & doctor of America

You are always there

We've been to Central America
HOW many times -
and *still* can't speak Spanish?!

Lil' b, hottie ma, b, big b

Whatever is good and perfect comes
to us from God. . . and He shines
forever without change or shadow.
James 1:17

SNARFFS!!!

The true treasures of medical school

God has so richly blessed us!
Thank you, family and friends,
for your immeasurable love
and support all these years,
and for being everything
that you are to us.

Dr. Sarah La Truong

Thanks for your love
and support.

Sisters...

...and friends

Dr. Christopher John Tuohy

Dr. Hunter Reeve Underhill

"In every walk with Nature one receives far more than he seeks."

-John Muir

"For small creatures such as we the vastness is bearable only through love."

-Carl Sagan

Dr. Kristine S. Vossler

Congratulations to the
Class of 2001!

Best of luck in your
future careers.

Dr. Douglass Michael Wallace

Our 1st "child" - 10% cat & 90% fur.

My Mom & Dad, whose love & support have strengthened me every step of the way.

Best friends for 20 years. But I must finally admit, he's smarter than I am.

Thanks, Sis for everything.

My beautiful wife, my inspiration, my best friend.

Dr. Christopher Ronald Walters

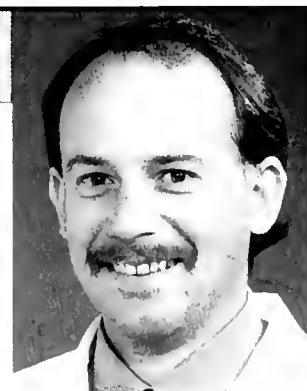

Dr. Michelle Leah Weber

To my family and friends - I could not have made it this far without your help and support.
I especially want to thank Mom, Dad, Ed and Sue for being there for me through thick and thin. I love you all!

Dr. Thomas Graham West

Dr. Leigh Carol White

Great thanks to my family. I appreciate your love, support, and encouragement more than words can express.

In loving memory...

Dr. Virginia Carolyn Wiley

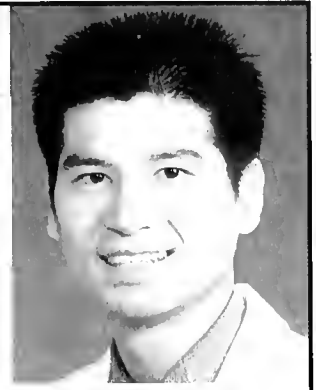

Teach me to do your will, for you are my God; may your good spirit lead me on level ground.
Psalm 143:10

Jason, Dad, Mom, B, Richard, Gayle, and Dana, I do not deserve your unconditional love and support.
Thank you!

Dr. Charlie Ching Yang

Life on the
interview trail,
where the only
thing to think
about between
the applicant
dinner and the
8:30am interview
is, 'God, I hope
this motel has
Showtime.'

—Michael Kraynyak,
MSIV

You want me
to show up at
6am?...for an
elective?!

--Lexi Grosvenor,
MSIV

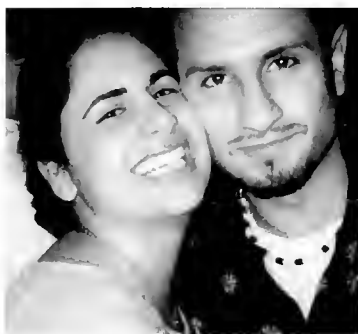

F.U.B.I.G.M.I.!!
(Forget you
buddy, I've got
my
internship!)

--Michelle Weber,

While watching
dozens of
babies sleeping
in the nursery, I
was reminded
that we all start
life equal and
angelic. The
nursery is a far
cry from 36
hour trauma
call.

--Sharice Hammond,
MSIII

Although waking up to pre-round on OB was difficult, I had the pleasure of seeing Cooper's wife being wheeled off to a room after having her baby. That was pretty cool.

--Jessie Kirby, MSIII

The best part
of general
surgery was
hearing how a
fellow
classmate
snuck a gooey
bite in the OR.
--Wendy Funk,
MSIII

Internal
Medicine
inpatient is a
lot busier than
outpatient
medicine--
that's for sure.

--Joel Hartman,
MSIII

They say the rigors
of med school are
the equivalent of
trying to take a sip
of water from a fire
hose. Third year is
a time when some
days you're
drenched and other
days you're bone
dry.

—The Longs, MSIII's

I think the
Bateave
should have a
red phone.

--Michael Land,
MSIII

For all of those
who love pain,
punishment,
misery and the
lifestyle of a
sado-
machochist--
Welcome to the
Rock!

--Jason Zook, MSIII

In trauma surgery, I learned the important life lessons: that it is best not to sleep with your babysitter or drive through a graveyard on your motorcycle while intoxicated.
--James O'Neill, MSIII

Medical
school is
very
draining--so
here's one
for Chesty!

--Chris Rama,
MSIII

First year, they
tell you the rules.
Second year,
they give you the
play book. Third
year, they put
you in the game.

--Sarat Chandarlapaty,
MSIII

"My most memorable experience...learning the craft of communication and experiencing the joy and satisfaction of establishing a bond with a most unusual patient."

--Jason Hong, MSH

"Bed side teaching was a great opportunity to interact with faculty and to apply our knowledge of basic science to patients at the bedside."

--Ryan Jordan, MSII

"The patient simulator was one of the most interesting experiences in medical school. It enabled us to witness the physiology and pharmacology of critical care, to see how things can go right or very wrong."

--Matthew Patrick, MSII

"My favorite block was endocrinology. Dr. Ober's lectures were like a well-rehearsed performance that kept us riveted to our seats. He cared so much for us, his patients, and the profession of medicine."

--Ezra Ellis, MSII

"Helping coordinate STAIS was a great experience. Our school reached out to hundreds of high school students in the community and provided them with an important message about HIV/AIDS."
--Betsy Salisbury, MSII

"Singing with the Ultrasounds has shown me that medicine alone is not the only way to improve patient's lives at the hospital. Many times, patients have told us that the five minutes we spend with them are the best of their day."
--Keith Pochick, MSII

"One of my best memories is standing in front of our class and us all singing a rendition of Three Dog Night's, *Jeremiah was a Bullfrog*/Joy to the World, in the midst of Gross Anatomy. To me, it was just one of those important, integral, early bonding experiences."

--David Lee, MSII

"One of the best aspects of our curriculum is it affords us the opportunity to interact with real patients beginning in the first week of first year. I'm so thankful for that opportunity."

—Stephen Brandt, MSII

One of the strong points of our curriculum is the teaching of interpersonal skills and bedside manner. I guess that's why all of our parties turned out so well—whenever someone ran out of things to say, a simple 'mmm' or 'go on' would always pull them though."

—Mike Nichols, MSII

They all told me,
 "You'll get to
 know your gross
 partners really
 well." They were
 right, and I
 definitely could
 have lived without
 some of the things
 I learned about my
 partners in 3 short,
 tense months.

--Tak Hirata, MSI

Erica
Stevenson

Aaron
Stevenson

I've learned
that a cheap,
ugly, stuffed
monkey can
rally class
pride and
ignite fierce
competition.

--Taylor Austin,
MSI

Yeah,
whatever
Jimmy...

--Daniel Leung,
MSI

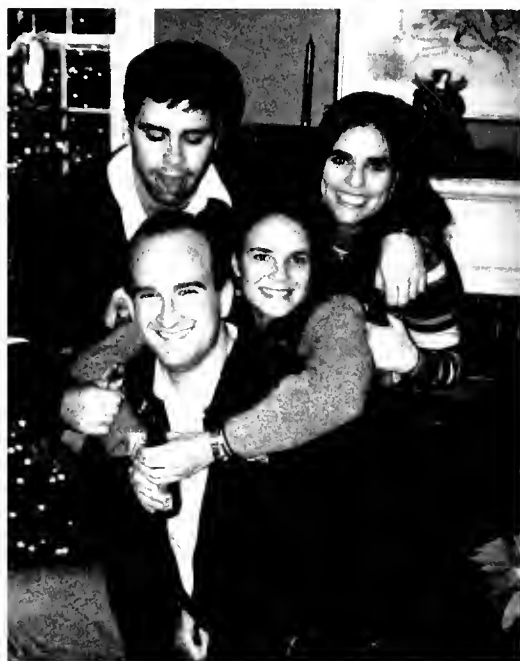

I am so impressed
with this school.

Wake Forest
creates physicians
that are more
concerned about
the welfare of
their future
patients than the
welfare of their
own careers.

--Eusebio Motejo,
MSI

After Gross
Anatomy I will
never look at a
wet dry vacuum
the same way
again.

--Amy Derrow, MSI

"They" say that
college is the best
four years of your
life. Little did
'they' expect that
a few sick, twisted
individuals like
myself might have
a blast in medical
school too.

--Rhys Lam, MSI

Through all the small group cases, lectures, service projects, labs, and personal growth this year, we have truly taken to heart John Dewey's idea that, "Education is not preparation for life; education is life itself."
--Mehul Ravel, MSI

If nothing else,
small group
taught me that
gastric
endoscopy
seems to be
much less
invasive than
colonoscopy.
--Ben Hopkins, MSt

Tell me the
story about...

STUDENT LIFE

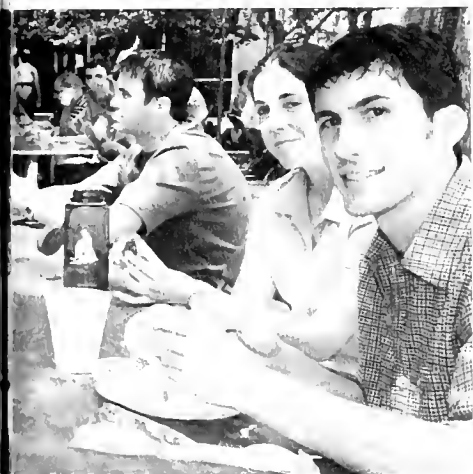

F r e s h m a n O r i e n t a t i o n

July 31, 2000 - August 4, 2000

While second, third, and fourth-year students readied themselves for another year of classes and rotations, first-year students were welcomed into the Wake Forest University School of Medicine. The week began with introductions to the school by Dean Thompson and the class mentor, Dr. Steven Block, followed by greetings from the Office of Student Affairs and the Medical Alumni Association. In a blur of events, the newest members of the school collaborated in small groups, while Ken Lassiter from the Computing Center taught them how to utilize their new computers for educational purposes, discouraging against indiscriminate use with sayings such as "Napster turns my fire-wall into swiss cheese." Despite full days, students enjoyed evening events such as a barbecue at Miller Park, the Dean's Reception, and the all school Michael's Party.

Primary Care Day & Residency Fair

September 21, 2000

Every fall, medical schools across the country endorse the importance of primary care training with National Primary Care Day. This half day event was planned by members of the Class of 2003, along with Student Affairs. The morning was filled with lectures given by locally practicing physicians including Dr. Ted Nifong, Family Medicine; Dr. Dudley Bell, Pediatrics; Dr. Pam Pride, Internal Medicine; and Dr. Larry Hopkins, Obstetrics/Gynecology. In the afternoon, the commons area was transformed into a residency fair filled with booths representing primary care fields as well as other medical specialties. Students were able to walk around and learn about training beyond medical school, while enjoying delicious Blueridge ice cream. The day afforded students an excellent opportunity to learn about training in primary care and other medical specialties and possibly guide them in a specialty choice beyond medical school.

WFUSOM harbors
an excellent
environment in
which to explore and
experience clinical
and basic science
research firsthand.

September 27, 2000

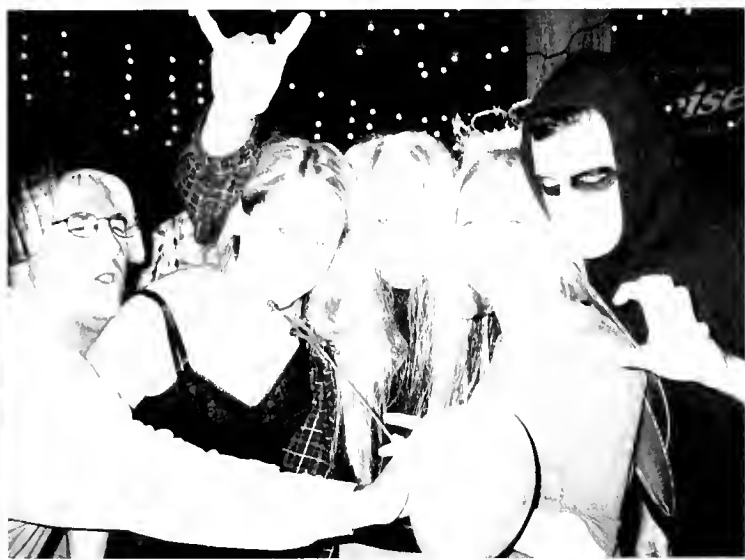

Student Research Day

Halloween Party

Burke Street Pub

October 28, 2000

F a l l C o n v o c a t i o n

November 4, 2000

This year the White Coat Ceremony was held on November 6th in the Babcock Auditorium. The ceremony traditionally marks the movement of the second year class from the basic sciences to clinically oriented learning. Proud family, friends, and medical school faculty watched as the Class of 2003 received their first white coats and Sir William Osler's book, *A Way of Life*.

H o l i d a y C h a r i t y B a l l

Sawtooth Center

December 2, 2000

Once again medical students and their dates came dressed to the hilt to the annual Holiday Charity Ball. One of the four activities sponsored by the Medical Student Government, the event was held at the Sawtooth Center in downtown Winston-Salem, with proceeds going to benefit the Make-A-Wish foundation. While many attendees started the evening with dinner on the town, they were still greeted with a splendid array of hors d'oeuvres and desserts to satisfy the insatiable appetite, while enjoying a multitude of drinks to wet their palettes. After filling the last corners of their stomachs with food, students danced late into the night to the sounds of Absolute 80's. It was a terrific night for students to gather, celebrate, and display their best in dress and dance, all for a wonderful cause.

Parents Weekend

February 16-17, 2001

Luggage tags, passports and plenty of fun! What do all of these have in common? They were part of the theme for this year's Parents Weekend... "Your passport for fun!"

The students of Wake Forest University School of Medicine hosted a weekend to welcome our parents to the school to learn about our lives during medical school. This was a wonderful opportunity for friends and family to meet faculty and our fellow classmates. The weekend included a variety of events: a candlelight dessert reception, faculty presentations, class slide shows, tours of the school, and a student-faculty talent show. Great fun was had by all and taking a trip to Winston-Salem was well worth it!

Parents
Weekend...What
a wonderful way
to show off our
friends, faculty,
and school. From
the Dessert
Reception and
slide shows to the
talent show, our
families had a
great time!
Sherry Ryter-Brown,
MSIV

I n t e r n a t i o n a l E x c h a n g e

Tokai Exchange Program

Tromso Exchange Program

I had the most wonderful experience studying at Wake Forest University School of Medicine. I was able to learn a lot, but the greatest part of my experience was being able to work with and get to know many great people here. You have all made my stay much more meaningful. I want to thank everyone for your warmth and kindness. I will miss you all a lot. I hope I get to see you sometime in the future again.

-- Rica Tanaka
Tokai Exchange Student

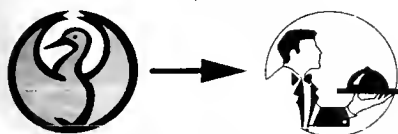

International Experiences

Many students take part in international rotations. Some go on spring or summer break trips while others go for extended elective rotations during their 4th year. Students most recently have traveled to places like Honduras, Nepal, India, and many countries throughout Africa. WFU School of Medicine also participates in exchange programs with schools in Norway and Japan. Whatever the reasons are for going, whether it's missions, research, or just for a cross-cultural experience, most return feeling their lives have been enriched in many ways.

Chickens: Keep all chickens outside the Hospital fence. All chickens found within the Hospital fence will be used for patients food.

While in Gabon, Africa I was challenged in many ways as I dealt with a new culture, diseases, and death. Despite the challenges, it was one of my most rewarding rotations as I saw both physical and spiritual healing in my patients.

CONGRATULATIONS

**James Alan
Danitschek**

Congratulations, Jim!
It has been a special
privilege to watch you
grow & mature. We wish
you every success.
Love,
Dad, Mom, & Sandra

Karen Barclay Mazie

Congratulations, Karen
Now little girls will be sticking
their tongues out for you.
Love, Mommy, Daddy, and Andrea

Marc William Mayhew

We are so proud of your effort and
determination to accomplish your goals.
Love, Dad, Mom, Emily, Robyn, & Jill

Congratulations to my
prince charming,
Jill

Julie Christine Clark

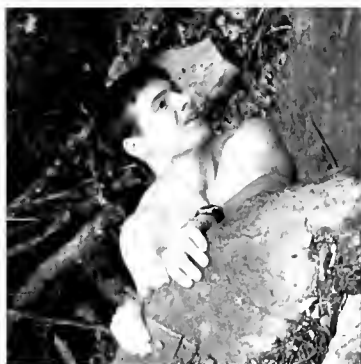

"Julie through the glass looking up at me, and you've just got to be the sweetest thing I've ever seen. Julie through the glass just born a day ago, and who knows where you've been and where you're gonna go."

Carly Simon

Ju bird, we are so proud of you!
Love, Mom & Dad

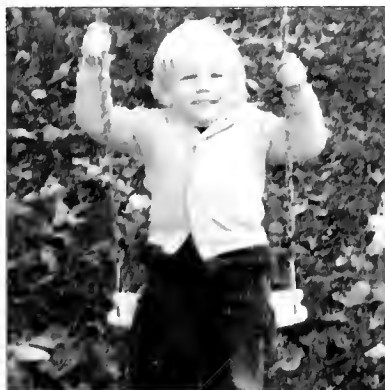

Charles David Eller

*"In the mountains of truth
you never climb in vain."*

David.
Your climb continues...
We salute you and wish you well!
Your loving family.

Douglass Michael Wallace

Congratulations, Doug!

You have always worked hard to attain your goals.
We are all very proud of you.
Love, Mom, Dad, Beth, Jennifer, and Jeff

Matthew Justice Carter

You are a man of integrity
and compassion.
I am so proud of you.
Love,
Mommer

Matthew Justice Carter

Congratulations, Matt!

We love you.

Jason, Meredith, Bubba,
Dixie, & Gypsy

**William
Douglas Shaw**

Here's To You!
I am so proud of you for
making this dream come
true! I will always be
right by your side.
I Love You!

William Paul Murphy

Super,
man!

We are all
very proud
of you!

Stuart Gordon Ginther

Congratulations,
Stuart!

We're all proud of
you for pursuing
your dream.

Love,
Mom, Dad & Bobbi,
Bruce, Wendy,
Nancy, Ross and
Ian.

Maria Rudisill Streck

Congratulations, Pooh!

May God bless you as your
life blesses others...
Love, Mom

Stewart Glenn Allen

Congratulations, Stewart!

We are so very proud of you. It was your childhood dream to become a physician and you made it come true.

May you always be the truthful and compassionate person that you are now.
We love you very much, Mom & Dad.

Michael Louis Speckhart

Through your faith
and perseverance,
you have achieved
your dream.

Keep Smiling!

Love,
Erin, Dad, Mom,
Joe, Eva, Jim, Josh,
& Ben

Congratulations, Mike

Sherry Marie Ryter-Brown

Memories, so precious
they last a lifetime.

Congratulations.

Love always,
Mom

Jacland Frank ReVille

To dream the impossible dream. That's what you did.
With God's help you have succeeded. We are so proud of you both.
We love you, Your family

It takes two

Dreaming

Succeeding

Nathan Patrick Dean

So much to look back on...

...yet so much to look forward to.

We've always been proud of you!

Congratulations!

Love, Mom, Dad, and Alison

Jennifer Beck Dean

Congratulations, Jenn!!

We're so glad you are a part of our family!

Love, Sara, Don, and Alison

Leighton Bradford Tewes

Congratulations, Brad!

Your vision, dedication and hard work have paid off.

Live a joyous and fulfilling life.

Love, Mom and Dad

Garrick Brent Mullis

Congratulations, Brent

We love you!

Dad, Mom, Bruce,

Baron, Brandon,

and Julie

Dwight David Bates

Congratulations, Dwight! We are very proud of you and admire your determination to work with all you heart in medical school, working for the Lord, not for men (Col. 3:23). We pray the Lord will bless your medical career as you seek His will and show His love to others.

Love, Mom and Dad

Ryan Kevin Rich

May all your dreams come true. We are all so very proud of you. You're the best.
We love you!! Mom, Dad, & Danielle

Melanie Ngochan Phan

Congratulations, Melanie!
We are proud of you.
Mom, Dad, Cuong,
Phuc, Khanh, Khoa,
Linh and Phat

Leigh Carol White

You have come
a long way!
Love,
Mom, Dad, Frank
and Larry

Elizabeth Ann Templin

Congratulations, Betsy

We thank God for you and all the gifts He has given you.
May you always use them with compassion and care.

Love, Mom & Dad

TORY

You dreamed the dream, worked so hard, and the dream came true.
God has blessed us with you and the world with your talents.
May you use them in His name in the best way possible.

Michelle Leah Weber

As you reach for the stars, you got taller.
We all love you.

Your whole family is proud of you.
“Viresque Adquirat Eundo” (Virgil)
“At every step she gains strength”

James William Cook

Good Job!
School wasn't that
bad was it?
Love,
Mom & Dad

Sarah La Truong

To dearest Sarah,
May many more dreams come true!
Congratulations!
With love, Sis and Phuong

Catherine Jane Rees

Congratulations, Catherine!

Pursue your goals persistently. . . Be the best that you can be. . .
May your fondest dreams come true. . . And most of all, believe in you.
We love you and are so proud of you! Mom & Dad, Tommy, Susie, Julie, and Jeff

Kristen Lyn Ferguson

To my beloved daughter
Kristen Ferguson

Colors

*Silken yellow hair, beautiful, long and swinging, but not defining of your being;
Flashing brown eyes, alert, sparkling with intelligence, energy, humor and love;
Solid gold heart, warm, softly but definitely beating its individual tune of life, willingly and easily melting into the hearts of others who will allow access to their own;
Burgundy red passions, encompassing so much. . . God and his creations -- rippling water, rushing wind, rural landscapes,
Husband, family, friends, and all children everywhere, Medicine -- your life's work and consuming interest, Music and dancing and laughing and loving mayhem;
Blue smile, as open as the western skies to friendship and shared moments;
Steely gray umbilica, worn, made firm by experience and hardships;
Green hands, fertile, unafraid to work for the spring blossoms;
Glistening white soul, pure in thoughts and motives, delicate and gentle, comfortably silent.*

Colors of you, gathered on this special graduation day into a stunning bouquet of personal and professional accomplishment, a gift to those whose lives you will touch.

Congratulations!

I love you - Mom

(Bobella Glatz)

More congratulations and love from:

Brother, Dr. Bob Glatz & Heidi
Grandmother, Elda Blalock,
Aunt Sheila and Uncle Rob Powers,
Rebecca Powers, Jonathan Powers,
and Richard & Rita Ferguson.

And a very special congratulations
from husband Brian,
who loves you so very much!

Bridget Ann Tewes

The Lord bless you
and keep you;
The Lord make His face
to shine upon you,
and be gracious to you.

Numbers 6: 14-25

I am glad He gave me you.

Love,
Dad

God bless you Bridget on this your special day.

Robert Darrell Nelson

Congratulations, Darrell!
We are very proud of you.

Love,
Mom and Dad

Brent Michael Powers

For our GREAT
Doctor!
We love you!
Your Loved Ones

Howard Warren Mueller

With sincere congratulations from Mama!

David Hall Hammett

You have always made us proud and have brought untold joy into our lives.

You did not choose an easy road,

and we know there were days like this.

But our wish for you is that from now on

most of your days will be like this.

Then forth to life, oh! child of Earth,
Be worthy of thy heavenly birth,
For noble service thou art here;
Thy brothers help, thy God revere!

- Samuel Longfellow

WE LOVE YOU!

Mom, Dad, and Bobby

William Douglas Shaw

Doug, we pray you will have continued wisdom and strength to follow your dreams, as well as the courage and ambition to meet tomorrow's challenges. You have always made us so proud.

Congratulations on your accomplishments!

Love, Mom and Dad

Doug, your childhood dreams are coming true. I know you will be a good doctor as you are a brother to me today. I love you!

Leah

Margaret Amanda Loda Boger

We are proud of you. Keep smiling!
Mom, Dad, David and Matthew

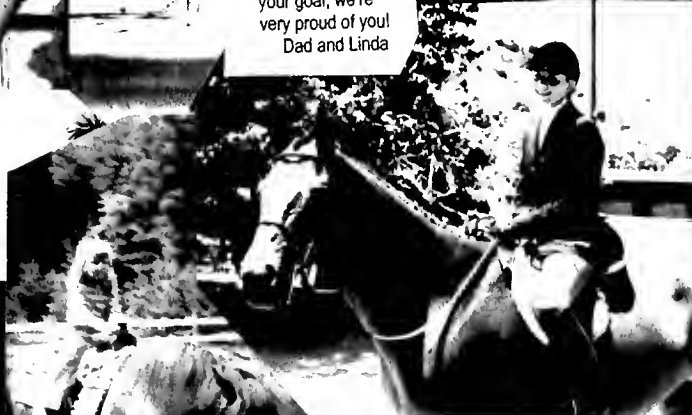

Kathryn Ann Bucklen

CONGRATULATIONS, KATE! Your persistence paid off.
Your determination is most admirable. We are very proud
of you. Love,
Jay and Eileen
P.S. I always said you got the brains. So, I must have
the looks.

You've achieved
your goal; we're
very proud of you!
Dad and Linda

"Some people settle for success when
they can't find a nobler cause." Unknown

You are successful and you have a nobler
cause. Your dedication to improving the
quality of life for others is a driving force
in a beautiful life - a beautiful person. We
love you and we congratulate you.

Mom and Hank

P.S. Your grandmother would be raising
her cane for you!

Charles Derek Reid

Congratulations, Derek!

We are very proud of you and love you so much! Follow your dreams and your heart.

Love, Mom, Dad, Carol, and Terry

Mom, Dad, Steve, and Kari*

David Dixon Childs

Congratulations David!

Andreas David Runheim

Congratulations Andreas!

As an exchange student you left Sweden for the USA in 1992. Since that you have become what you once dreamt about - a doctor! We are very proud of you and love you so much. Our warmest congratulations to a brilliant achievement and good luck to you and your wife Anne for the next part of your lives-

God bless you both!

Mom & Dad, Gabriella, Michael & Josef, Susanna, Mattias & Fanny, Grandma & Grandpa

Cressent Marjorie Hudson

Dearest Cressent,
 Medical school has given you a
 healing mind and healing hands.
 Your passionate and loving heart
 has given you your healing spirit.
 Those who will be "touched" by your
 mind, your hands, and most of all...
 your spirit, will, indeed, be blessed.
 We love you and are so very proud of you,
 Mom, Dad, Katie, Grandma and Granddaddy

Janet Knight Horton

We have enjoyed watching you in every phase of your life. We are happy for you and congratulate you. With all our love and best wishes, Mom, Jen, Jason

Manuel DeJesus

Congratulations!
We finally made it out of
the 5th dimension.
What a team we make:
you studied, I worked, and
Shane made it all worth
while.
We love you.

Natalya B. Faynboym

Congratulations Natalya. We have always been so very proud of you. Best wishes and much happiness in the years ahead. Always follow your motto:

"Never retreat, never surrender".

Love you very much, Mom and Dad

Always ready to fight.

You can always have my shoulder.

I love you "Kut'ka".

Tonya Kristin Arscott-Mills

Congratulations
Tonya!
We're so proud
of you.

Love,
Mum and Tim

Psalm 16: 5-11

Christopher Tuohy

Whoever said change was a
bad thing?

Congratulations, Chris!
I love you, Nan

Kerry Louise Rotondi

Congratulations, Kerry.

We are very proud of you and your accomplishments.

Our love for you is endless.

Love, Mama, Daddy, Jeanie, Martin, Declan, and Felix the Cat

Jennifer Giin Kim

Jen, Congratulations!

First of all, return all glory to God our Lord. We are proud of your achievements. May your love for God and your thirst for knowledge be the drive to your noble goal of helping those in need!

We love you,
Mom, Dad, Lisa, Michelle, &
David

Elizabeth Ann Daniel

The eagle lands at midnight.

Four more years until I retire!

I'm a very *small* animal.

Congratulations, Beth Ann!

I knew you could do it!
I'm very proud of you.
I love you,
Richard

Your passport is invalid!

*As you graduate, the future
and the tradition are yours.*

CONGRATULATIONS TO
OUR NEWEST ALUMNI -
THE CLASS OF 2001!

THE MEDICAL ALUMNI ASSOCIATION OF
WAKE FOREST UNIVERSITY SCHOOL OF MEDICINE
The Bowman Gray Campus

Gerry Todd

Congratulations on becoming a citizen
of the United States of America.
We're so proud of you!

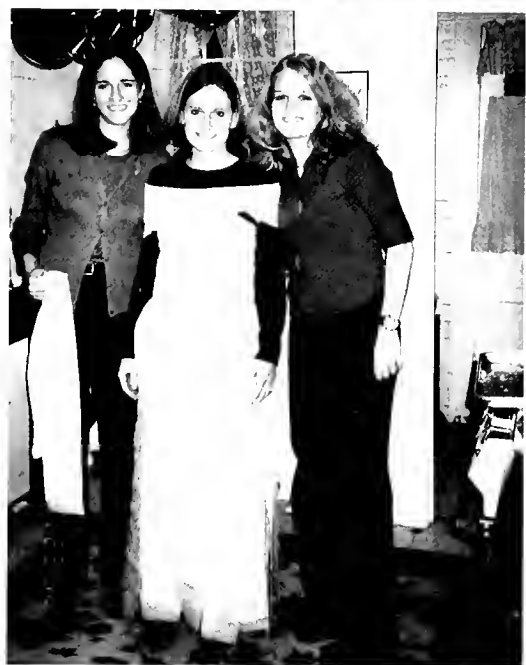

Thank you for keeping us secure and
providing us with a needed diversion
during our late nights of studying.

We'll miss you.

--Class of 2001

In Memoriam
S. Bryant Kendrick, D.Min.
Associate Professor of Internal Medicine
November 6, 1945 - November 13, 2000

Reverend Doctor Bryant Kendrick gave over twenty years of service to the Wake Forest University School of Medicine. To commemorate his life, we have chosen to include excerpts from the eulogy given by Dean James Thompson at his memorial service.

Bryant was a man who loved to make a joyful noise, whether it be in communicating his zeal for compassionate health care to students and house officers, or whether it was playing guitar and singing gospel and old country music with the Petrous Ridge Band. Bryant loved to make a joyful noise.

I have known Bryant for nearly all of those twenty years that he worked at the Medical Center. I have known that big teddy bear with a great infectious laugh who could walk into a room and totally disarm a crowd with his long ponytail, his Santa Claus-type beard as he was introduced as the Reverend Doctor. Yet this gentle man was very traditional in so many other ways. A devoted husband. A loving father. And most recently, the proudest of grandfathers. It was traditional values that he taught in his role as a member of the faculty of the School of Medicine. Perhaps that is best emphasized in the comments so many others at the Medical School have relayed regarding the influence that Bryant had in their lives.

One wrote, "He blessed our lives and gave us gifts that we will continue to treasure for years to come, gifts of himself, his intellect, his compassion, his quiet passion for his work, and the permission he seemed to have to be himself, unique and wonderful."

Another wrote, "He always reminded us that medicine is about the patient. He helped me realize that being able to practice medicine and help people in that capacity is a true gift I should cherish."

Bryant's contributions to the Medical School curriculum will also have an enduring impact on the next generation of physicians. He was successful in receiving funding from the Templeton Foundation to begin our first course on the unique relationship of faith and medicine. Bryant was ahead of his time in recognizing that a person's health, as well as their well being, can be markedly enhanced by a relationship with our Creator. Bryant himself reflected his own personal faith in his gentle and loving approach to others. He asked little of others and was always willing to give of himself. Truly he was a servant leader in all that he did. This wonderful beloved man, a friend of all at the Medical School, also had a light and jovial side.

One person wrote of Bryant, "The thing we will miss most is his laughter. His cheerful continence made him a joy to be around. Even as he was talking with other people, I enjoyed hearing him laugh with them. He was always talking about his fishing trips and one day he walked in with a fish mounted on a plaque and said, 'I brought this in so that you would know that I really caught a fish.' This was the first time I had seen the Big Mouth Billy Bass, and when the fish started singing and looked at me, I almost fell off my chair."

I will have for the remainder of my days many fond memories of Bryant Kendrick, but perhaps my most pleasant and enduring memories will be those of the times we shared music together. Bryant loved to make a joyful noise and where the scripture says make a loud noise, I think Bryant truly took that admonition to heart. He rejoiced and sang with such great praise that it was hard not to be swept up in his enthusiasm, particularly as he was bellowing out a gospel tune. Dr. Jesse Meredith from the Department of General Surgery, Dr. Charles Turner from Pediatric Surgery, and many others along with myself were truly blessed to have been able to make a joyful noise with Bryant.

His faith and trust is such that he is now at peace, resting with our Lord, and I am certain making a joyful noise.

Colophon

We would like to extend thanks to the following people:

Our friends and family:

For listening to us and supporting us in our venture to produce this book.

Office of Student Services:

Especially, Dr. Patricia Adams, Lynn Snyder, Ginger Graham, Kelly Rubeck, and Jane Hege for their organization in collecting photographs and receiving proofs, and their endless advice and support.

Biomedical Communications:

In particular, Linda Arcure, Tom Roth, Lou Davis, and Will Willner for their time in developing CDs of portraits and extreme patience when we asked for photographs at the last minute on numerous occasions.

I-Wen Chang:

For having a camera and willingness to take pictures throughout the medical center.

Heather Jones:

For your help in gathering quotes and photographs for the Class of 2002, and your interest in producing the 2002 *Gray Matter*.

Simon Chao:

For collecting photographs of the Class of 2003 and dealing with our continuous harassment in generating quotes.

Ben Hopkins and Chris Barnes:

For taking the time to choose the pictures for the Class of 2004 layouts and collecting excellent quotes at the last minute.

Kaye Miller:

Words cannot even express how thankful we are for your assistance, patience, mediation, and willingness to meet or talk with us at any time of the day or night. We could never have put this book together without you.

--Elizabeth Daniel, Jennifer Kloss, and Kerry Rotondi
Editors of the 2001 *Gray Matter*

Printing: Volume 57 of the *Gray Matter* was printed in Charlotte, NC, by Herff Jones, Inc. Eighty-pound gloss paper was used throughout the book with black ink. Custom signature endsheets were black ink printed on Fibertext Seashell paper.

Production: The 2001 edition contains 256 pages. It was electronically produced on computer and submitted on disk for Imagesetter output at the plant. Adobe PageMaker 6.5 software was used for production. Topography included the Times New Roman family for all body copy and quotes, with the University Roman family used for headlines and cover text.

Cover: The cover was designed by Herff Jones' graphic arts department. The base material is Novatex Stonewashed with silkscreening in silver and black and silver foil overlay. Silver foil was used for the name stamping.

Photography: All portraits were taken and printed by the Department of Biomedical Communications. Individual members from the Class of 2001, Class of 2002, Class of 2003, Class of 2004, Physician Assistant Program, and Graduate Studies Program provided the candid photographs.
